PUBLIC NOTICES

PEOPLE

**ARE YOU SINCERELY CONCERNED ABOUT—
POLLUTION, CONSERVATION, POPULATION, SURVIVAL,
ECOLOGY AND THE ENVIRONMENT GENERALLY?**

DO YOU BELIEVE THAT—

Present misdirected economic growth creates many associated problems?

We cannot rely on present unfounded hopes that science and technology will "come up with something"?

Politically expedient short-term policies are unlikely to ensure our long-term survival?

No government can properly tackle these problems whilst vested interest pressure groups with deep-rooted attitudes are allowed to demand tributes which only worsen the situation?

PEOPLE is a catalyst drawing together like minds from the whole spectrum of concerned opinion, creating a new will within our nation.

PEOPLE is acting now to—

Convert words into action at the next general election. Unite independent candidates with similar opinions under one banner.

Present a credible alternative movement by promoting a common front.

PEOPLE is looking for—

Candidates able to organise their own local environmental campaign.

Fund raisers and donors, facilities, technical expertise. Workers for the movement. Voices to spread the word.

PEOPLE wants positive action now in response to the doomwatchers' forecasts.

PEOPLE needs you—We need PEOPLE.
