

YOUR PEOPLE CANDIDATE PROMISES TO WORK TO :

1. Reduce the **POPULATION** of the United Kingdom to a self sustainable level as soon as possible.
2. Reduce **INCOME** differentials. **PEOPLE** has no wish to 'Bash the rich'. Greater equality will flow naturally from overall policies.
3. Promote full and satisfying **EMPLOYMENT** for everyone.
4. **SOCIAL WELFARE**: Encourage individual human dignity and help people to help themselves.
5. **HOUSING**: Discourage further population increases in large Towns and Cities.
6. Become agriculturally self sustaining which will in turn lead to price stabilisation.
7. Encourage **RE-CYCLING** of natural resources and discourage resource consumption. Move from a 'flow' to a 'stock' economy.
8. **CAPITAL WORKS**: Emphasise socially and environmentally desirable projects independent of anticipated financial return in presently accepted economic terms.
9. Improve public **TRANSPORT**. Judge all systems against environmental and sociological considerations.
10. Conserve all sources of **ENERGY**. Hydro-electric power, tidal barriers, wind and solar power appear to be our only reliable long term sources of power.
11. Shift the emphasis of **FOREIGN AID** programmes from cash hand outs to practical help. Seek co-operation from other Countries in implementing policies.
12. Seek joint **MILITARY** programmes with the other countries. Dismantle Britain's nuclear capabilities, unilaterally.
13. Make punishment fit the crime. Strengthen the **LAW's** protection of the individual in general and as against the State in particular.
14. **POLLUTION**: 'The Polluter must pay' would be a starting point.
15. Promote wider **EDUCATION** including more emphasis on arts, crafts, music and social graces and less emphasis on exam cramming. Re-examine the cost/benefit of our present system.

VOTE FOR **PEOPLE** IN BRITAIN

PEOPLE HAS NO BACKERS & NO MONEY. Will you give £1 now to help our fighting fund? Give no before its too late. Send to L. Whittaker, 69 Hertford Street, Coventry.
NOW PASS THIS TO A FRIEND - A LOT DEPENDS ON IT

“BATTLE OF BRITAIN”

Today's "Battle of Britain" is cleaning up the debris in both the streets and the minds of people. For too long we have been confused with the arguments of left and right, petty bickerings between Labour, Liberals, and Conservatives, Unions & Management. Each side frightened that the other might score a few more points instead of working together to put the country on its feet and secure a future not just for your children but for you. It is time we rid ourselves of the attitudes of "them & us" and gave this country back to its citizens.

PEOPLE PUTS POLITICS IN PERSPECTIVE

needs YOUR Vote

GROWTH AT ANY PRICE ?

Paper, bottles, cans, cars, boxes, bags all material goods often exceeding our real requirements and exploiting the limited material resources of planet Earth in a way which cannot continue. And most of it ending up as scrap.

PEOPLE WILL STOP WASTE

Oil, Sewage, Chemicals, Fertilizer, Pesticides, Factory effluent, Smoke, Scrap the end products and by products and accidental products of our society are more and more fouling our environment, killing our wildlife, destroying our existence.

PEOPLE WILL PREVENT POLLUTION

Reliance on oil for power has left us vulnerable to both Sheiks and miners. Short sighted, short term policies of cheap energy have not only mortgaged the future and polluted the atmosphere but also left us to pay dearly for the greed of governments.

PEOPLE WILL GIVE YOU POWER

PEOPLE GIVES BRITAIN A PURPOSE

Aircraft, Juggernauts, Traffic Jams, Congested Towns, Crowded Countryside, Bulging Beaches, Noise Pressure, Smells you cannot get away from it. For too long the professional politicians have sold our inheritance for a mess of potage.

PEOPLE PROMOTES PRIVACY & PEACE

A land where no flowers grow and no birds sing, where the trees stand naked and earth turns to dust the deserts and semi-deserts of the world are frightening examples of neglect and exploitation. Yet one after another governments fail to act.

PEOPLE WILL NURTURE NATURE

And if all else fails? Incredibly we are now being rushed into unproven and potentially unsafe nuclear reactors. They could blow up or release massive doses of radioactivity. Caution must not be thrown to the wind. We must prevent careerist politicians from risking our world.

PEOPLE HAS THE ENERGY – HAVE YOU?
